- Primary: #C3ACFF
- Secondary: #CBD5FF
- Text/Dark: #121212
- Background: #F8F8F8
- Typography: Inter
- Style: soft gradients, premium whitespace, rounded cards, Apple-level restraint

This is written as a high-control UI/UX + copy prompt you can give directly to your designer or AI builder.

.

OBJECTIVE

Create a pricing page that clearly explains the three Requi tiers:

1. Requi Intelligence
2. Requi Pro
3. Requi Enterprise

The goal is to:

- make the offer instantly understandable
- make the entry tier attractive
- make the middle tier feel operational
- make Enterprise feel like the real power tier
- create clear upgrade logic

PRODUCT POSITIONING

Tier 1 — Requi Intelligence

Single-user intelligence product

Core idea:

AI-powered healthcare compliance intelligence on demand

Price:

$199 / month

1 user

Positioning:

For independent operators, advisors, and lean healthcare professionals who need direct compliance intelligence without workflow management.

Includes:

- AI compliance Q&A
- federal guidance
- structured summaries and checklists
- basic state-level awareness
- saved conversations
- prompt templates

Excludes:

- task management
- reminders
- dashboard automation
- integrations
- health plan-specific intelligence
- full compliance scoring

Tier 2 — Requi Pro

Operational team tier

Price:

$500–$750 / user / month

Minimum 10 users

Positioning:

For growing healthcare teams that need visibility, tracking, and operational structure.

Includes:

- everything in Intelligence
- task management
- deadline tracking

- reminders
- basic dashboard
- compliance score
- risk score
- audit readiness preview
- multi-user access
- AI-to-task suggestions

Limited:

- payer/health-plan specific intelligence
- advanced automation
- deeper integrations

Tier 3 — Requi Enterprise

Full operating system tier

Price:

Custom / Contact Sales

or

Starting at $1,000+ / user / month

Minimum 25 users

Positioning:

For organizations that need the full healthcare compliance operating system.

Includes:

- everything in Pro
- payer / health plan intelligence
- CalAIM / managed care intelligence
- full scoring engine
- full compliance gap detection
- document intelligence
- AI-driven workflow orchestration
- enterprise integrations
- audit trail and organization-wide automation
- multi-state, multi-entity support

PAGE STRUCTURE

SECTION 1 — HERO

Layout:

Centered, spacious, premium

Headline:

Simple pricing for healthcare compliance intelligence

Alternative headline:

Choose the Requi plan built for your stage

Subheadline:

Requi helps healthcare teams move from answers… to action… to full compliance control.

Small badge above headline:

AI-powered healthcare compliance

CTAs:

- Primary: Start Free Trial
- Secondary: Talk to Sales

Visual treatment:

- soft radial purple-blue glow behind the hero
- subtle floating gradient blur
- no busy illustrations

SECTION 2 — PRICING CARDS

Three horizontally aligned cards on desktop, stacked on mobile.

Card design rules:

- rounded corners: 20px

- soft shadow
- light border or no border
- subtle tint fill
- clean spacing
- strong typography hierarchy

Card states:

- Intelligence = clean white / subtle purple accent
- Pro = highlighted / “Most Popular”
- Enterprise = darker or more premium elevated feel

CARD 1 — REQUI INTELLIGENCE

Label:

For individuals

Title:

Requi Intelligence

Price:

$199

/month

Subtext:

1 user · intelligence only

Short description:

Your AI compliance expert on demand.

Feature list:

- Ask compliance questions anytime

- Federal guidance and structured answers
- Basic state-level awareness
- Saved conversations
- Prompt templates
- Guided summaries and checklists

Muted “not included” list:

- No task management
- No reminders
- No integrations
- No dashboard automation

CTA:

Start Free Trial

CARD 2 — REQUI PRO

Label:

For teams

Badge:

Most Popular

Title:

Requi Pro

Price:

$500–$750

per user / month

Subtext:

Minimum 10 users

Short description:

Turn compliance intelligence into trackable team execution.

Feature list:

- Everything in Intelligence
- Task management
- Deadline tracking
- Reminders
- Dashboard overview
- Compliance score
- Risk score
- Audit readiness preview
- Multi-user collaboration
- AI-to-task suggestions

Muted limited note:

Limited payer-specific intelligence and advanced automation

CTA:

Book a Demo

CARD 3 — REQUI ENTERPRISE

Label:

For organizations

Title:

Requi Enterprise

Price:

Custom

or

Starting at $1,000+ / user / month

Subtext:

Minimum 25 users

Short description:

The full healthcare compliance operating system.

Feature list:

- Everything in Pro
- Health plan / payer intelligence
- CalAIM and managed care intelligence
- Advanced compliance scoring
- Live gap detection
- Document intelligence
- Enterprise integrations
- AI workflow orchestration
- Audit trail automation
- Multi-state and multi-entity support

CTA:

Talk to Sales

SECTION 3 — FEATURE COMPARISON TABLE

Must feel premium and readable, not spreadsheet-like.

Table columns:

- Feature
- Intelligence
- Pro
- Enterprise

Rows:

- AI compliance Q&A
- Federal guidance
- State-level guidance
- Saved conversations
- Prompt templates
- Task management
- Deadline tracking
- Reminder engine
- Dashboard
- Compliance score
- Risk score
- Audit readiness
- Multi-user collaboration
- Payer / health plan intelligence
- CalAIM / managed care logic
- Document intelligence
- Integrations
- Workflow automation

- Audit trail automation
- Multi-state enterprise support

Visual rules:

- use check icons in purple
- use subtle dashes for excluded items
- use “Limited” tags where applicable
- table should breathe with large padding

SECTION 4 — WHY TEAMS UPGRADE

Use 3 soft cards explaining progression.

Card 1

Start with answers

Use Intelligence to get fast, structured guidance.

Card 2

Move into execution

Use Pro to turn guidance into tasks, deadlines, and visibility.

Card 3

Scale with control

Use Enterprise to automate compliance across teams, plans, and states.

SECTION 5 — ROI / VALUE BAND

Horizontal section with large numbers.

Examples:

- Reduce manual compliance work
- Never miss critical deadlines
- Move faster with AI-backed intelligence
- Stay audit-ready with less overhead

Optional stat-style blocks:

- Faster research
- Lower operational risk

- Better compliance visibility

Keep this elegant, not salesy.

SECTION 6 — FAQ

Use accordion style.

Questions:

1. What’s included in Requi Intelligence?
2. Does Intelligence include task management?
3. Can I start as a single user and upgrade later?
4. What’s the minimum seat count for Pro?
5. What makes Enterprise different?
6. Do you support payer-specific intelligence?

7. Are integrations included in every plan?
8. Do you offer a free trial?

Answer guidance:

- Intelligence is single-user and focused only on AI compliance intelligence
- Pro introduces operations and tracking
- Enterprise unlocks payer-specific intelligence, automation, and integrations

SECTION 7 — FINAL CTA

Centered, premium close.

Headline:

Start with intelligence. Scale into control.

Subheadline:

Whether you need direct compliance answers or a full operating system, Requi grows with your team.

CTA buttons:

- Start Free Trial
- Talk to Sales

Background:

soft gradient wash using #C3ACFF and #CBD5FF at very low opacity

COPY RULES

Use copy that feels:

- premium
- clear
- executive-friendly
- not hypey
- not overtechnical

Avoid:

- “cheap”
- “basic”
- “freemium”
- overly startup language
- dense paragraphs

VISUAL RULES

- use large whitespace
- prioritize hierarchy
- cards should feel elegant and soft
- no harsh black boxes except where contrast is intentional
- purple should feel premium, not playful
- buttons should be rounded and clean
- “Most Popular” should be subtle and tasteful

CONVERSION STRATEGY

The pricing page must make the user feel:

Intelligence

“I can start immediately.”

Pro

“My team can finally get organized.”

Enterprise

“This is the real operating system.”

That emotional ladder is critical.

REQUIRED OUTPUT

Respond in this order:

1. Pricing page layout
2. Hero copy
3. Full pricing card copy
4. Feature comparison table
5. FAQ copy

6. CTA section
7. Design notes matching the attached style
8. Mobile adaptation notes

Start with:

1. Pricing page layout

:::

And here’s the clean comparison table content by itself if you want to plug it straight into the page:

Requi Pricing Comparison
